This sheet explains the terms on your tax bill, this is NOT your tax bill.

**CITY OF ONALASKA**

**SAMPLE REAL ESTATE PROPERTY TAX BILL FOR 2012 Payable in 2013**

**Land Value vs. Improvements Value:**
Your property parcel is divided into your lot/land, and your improvements (house, garages, outbuildings, etc.). They are taxed at the same rate, although the values are likely different.

**Estimated Fair Market:**
The estimated value calculated by the Wisconsin Department of Revenue, based on “Arms Length Sales” - (sales between a willing buyer and seller) during the past year. As with the assessed value box, this is divided up between land/lot & improvements.

**Taxing Jurisdiction:**
There are five (5) main taxing jurisdictions in La Crosse County: County, School District, Western Technical College, the local municipality your property is located, and the State of Wisconsin. Some properties may lie in “special purpose districts” such as a lake district or sanitary district. If so, a portion of your property tax is also shared by this special district.

**First Dollar Credit:**
A new tax credit program applied to each taxable property with improvements. First dollar credit is applied equally across all installments. Ex.: $63.31/ 4 installments= $15.83

**Lottery/Gaming Credit:**
Property that is used as an owner's primary residence qualifies for this credit, which comes from state lottery revenues, on-track betting & bingo facilities.

**Total Assessed Value:**
This is the $ value your municipality’s assessor has determined for your property. **This is the value your municipality uses to calculate the total property tax you pay** for municipal services, as well as school district costs, La Crosse County services, Western Technical College, and the State Forestation Tax. As you can see, it is the sum of your land value, and improvements (house, garage, out-buildings, etc.).

**Average Assessment Ratio:**
This number represents the municipal average assessed value of all taxable property when compared to the estimated fair market value of all taxable property (in the municipality your property is located). This value multiplied by Total Estimated Fair Market Value should be comparable to the Total Assessed Value (since this is your municipality average it may not be exact.)

**Net Assessed Value Rate:**
This is the combined mill rate off all the taxing jurisdictions listed above applied to your Total Assessed Value. The product of these two values equals your Total Tax before the lottery credit is applied. (Ex. $165,700 x 0.020317006= $3,366.53)

**Net Assessed Value Rate (Does NOT reflect First Dollar or Lottery Credit):**
0.020317006

**School Tax Levy Credit:**
A State of Wisconsin “property tax relief” program, distributed to municipalities based on their share of statewide school levies.
