

ENROLL IN A 4-H PROJECT

WHY ENROLL IN A 4-H PROJECT ABOUT COMMUNITY SERVICE?

Having a 4-H project that focuses on community service efforts will help you reflect on your community service contributions and how it can be improved in the future. In the future, you can look back in your 4-H Record Book and realize how you have grown as a person and become a more effective citizen. This is also an ideal way to get recognition for the work you are already doing when it comes time to apply for project awards.

4-H PROJECTS RELATING TO COMMUNITY SERVICE

Below is a list of 4-H projects that can be geared specifically towards your community service efforts. You can also incorporate community service into your existing project. One example is of someone who is in the electricity project. You might decide to work with Habitat for Humanity to build houses. If you are in the communications project, you might offer to create flyers for a local homeless shelter that highlights their greatest needs. Expand your project by getting other 4-H members in the same project involved!
